HELLO!

Elvis Zambrano Sánchez and this is my resume

A multidisciplinary background lead me to bring permanently a 360° perspective to my work. As of my experience, by working both directly for the brand or through and agency, has given me the chance of facing every challenge from several perspectives, forcing myself to think out of the box, keeping creativity and innovation always awake and so deliver new and fresh solutions. Moreover, this changing environment has developed and reinforced my communication skills with my line managers, co-workers and of course costumers.

Self-motivation, creativity and intuition are my motto; fine arts, photography, design and fitness, my passion.
